

# 8 Easy Steps on How to Begin Your Home Learning Registration Process

1.

Sign up to The Collective Minds Community [membership space](#) to receive access to our learning bundles, yearly overview and quality resources.

2.

On our website's [Home page](#), click on the state or territory you reside in, to familiarise yourself with the home learning requirements for your child.

3.

Download our **'Home Education Application'** for home schooling and tweak it to suit your child's individual learning needs & goals. This will support your application process, as all of the hard work has been done for you by qualified teachers.

4.

Use our editable **'Letter to Withdraw Your Child From School'** template to send to your child's current school. It is unheard of for a parent to be denied the right to home school their child - just stay in contact with your home education department.

5.

Download our **'Quarterly Overview'** document. This document allows you, the home educator, to use as is OR co-create your own weekly plan with your child. Using this template, you have the freedom to choose each week from the content provided.

6.

Keep track of the content that your child has learned on your **'Editable Quarterly Overview'**. This allows parents and children to keep a record of their learning progress & tick off each concept that they have completed.

7.

Connect with your community and any like-minded families in your area. Jump onto our [Instagram](#) to find your people! Our home schooling co-op post is your first starting point

**Keep an eye out for our workshops!**

8.

Begin your home learning journey and remember to embrace your child's own unique learning style and pace. Remember, home schooling is a lifestyle change, so be easy with yourself and have fun with it!
